ABOUT US

Seadar Contractors are fast becoming the contractor of choice for FRP and Civil Works across New South Wales and Queensland.

Established in 2014 by Seamus Galvin and Daire Carolan, Seadar Contractors have achieved consistent growth year-on-year, expanding from 15 employees in 2014 to over 350 employees today.

Specialising in formwork, reinforcement, and concrete, Seadar Contractors apply their knowledge and experience across infrastructure in the road, bridges, and civil works sectors.

Seadar Contractors offer a complete service to our clients from pre-tender budgets, complex engineering, and project programming.

Seadar operates a family-like culture across the company, ensuring our employee's well-being and safety is maintained above all else.

In return Seadar has retained a variety of skilled, reliable, and dedicated staff.

We have our people at the forefront of our company, and we recognise our continuous growth and success as a direct result of their great attitude and performance.

MEET OUR DIRECTORS

SEAMUS GALVIN - DIRECTOR

Jointly founding Seadar Contractors in 2014, Seamus Galvin is one half of the pair that has made Seadar the winner it is today. Seamus has over 20 years' experience in the construction industry across Ireland, the UK and Australia. Having spent many years working for Tier 1 construction companies directly, Seamus knows the level of quality and performance expected on Australia's large infrastructure projects. Seamus manages the Seadar team effectively to ensure they deliver to the highest standard.

DAIRE CAROLAN - DIRECTOR

Daire Carolan is the second part of the duo that formed Seadar Contractors, beginning his working life as a tradesperson, Daire has been in the construction game all his career, gaining experience and knowledge of every aspect of the construction world. Daire understands the necessities required on site to deliver a project successfully, and with safety as his priority. Daire visits each site daily guiding the Seadar crews to achieve their project's goals.

MISSION STATEMENT

With people and safety at the forefront of our business, our aim is to provide premium results for our clients, by engineering innovative solutions for quality construction.

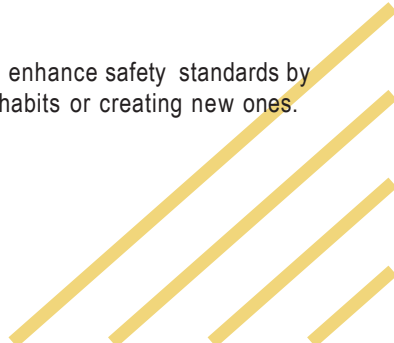

SAFETY

Seadar Contractor's impeccable safety record can be attributed to our highly-skilled, rigorously trained, field personnel and their insistence upon orderly, clean job sites and the strict enforcement of all local safety regulations.

Our comprehensive approach to health and safety is led by each employee with the assistance of our dedicated Safety Manager Nelson Da Sliva. Our approach includes:

- Mandatory Personal Protective Equipment for all workers and site visitors
- First aid training for all Field and Project Management personnel
- Project-specific Site Safety Plans
- Project-specific Emergency Response Plans for accidents and hazards
- Proactive accident/incident reporting and investigation procedures
- Weekly on-site Toolbox Talks

We aim to mitigate and manage risks by finding new ways to enhance safety standards by updating technology, improving our procedures, breaking old habits or creating new ones.

EQUIPMENT & RESOURCES

Equipment & Assets

Our fully equipped yard and office spaces within NSW & QLD are designed to support the efficient operation of civil infrastructure projects, ensuring seamless logistics and operational continuity.

Our growing assets includes:

- 50T Crawler Crane
- 25T Franna
- 20m Concrete Pump
- 28m Concrete Pump
- 47m Concrete Pump
- Semi-Truck & Trailer
- 2 x 10T Hiab Crane trucks
- Hook Truck (flatbed and skip attachments)
- 4 x 360° Telehandlers
- 2 x Straight boom Telehandlers
- Excavators
- Drilling Rig
- Road Saws/ Core Holing Services
- Bar benders (Trailer Mounted)
- 2,500m2 Doka Formwork
- Bridge Truss Screeds
- Triple Roller Screed

Labour Hire

We supply highly experienced professionals with a strong commitment to safety, ensuring clients receive expert support on sites where compliance is rigorously enforced.

Our growing Workforce includes:

- Construction Manager
- Operations Manager
- Safety Manager
- 2 - Project Managers
- 5 - Project Engineers
- 4 - Senior Foremen
- 4 - General Foreman
- Site Supervisors
- Leading Hands
- Concreters
- Carpenters
- Steel Fixers
- Welders
- Operators
- Dogmen
